

Machine Studies

Schedule for Run2-13,2003

August 18th, 1600 - 19th, 0800

Time	Descriptions	Studios	SRStatus
Monday, 08/18/03			
1600-1700	User orbit for 324 bunches	Singh	Stored beam and injection
1700-1830	Zone-F access to fix a thermal coupler on S38 cavity tuner, control access, need to lock double sector and BM	Grelick RF group	No beam
1700-1830	Zone-D access to check 24ID chamber ion pump cable, control access and working warm is ok	Wiemer-slage	No beam
1730-1930	Booster direct injection training	Sereno	Stored beam and injection
1930-2330	X-bpm feedforward study	Decker Singh	Stored beam and injection
2330-2400	Measure dynamic aperture of doublets lattice	Emery	Stored beam and injection
Tuesday, 08/19/03			
0000-0230	Measure dynamic aperture of doublets lattice	Emery	Stored beam and injection
0230-0500	Study time available		Stored beam and injection

Time	Descriptions	Studiars	SRStatus
0500-0700	Corrector noise study	J.Wang Yao	Stored beam and injection
0700-0800	Ready for user beam with 324 bunches fill pattern, low emittance and non-top-up	OPS Yao	Stored beam and injection
